**PROGRAM
CHANGES - Cont.**

Mobile Equipment Exclusions

Removed the note that referred to 10.D as this paragraph has been eliminated.

Pollution / Environmental Damage Exclusion

Revised to include Personal Injury / Advertising Injury.

Added language to clarify that controlled fires would not be excluded as long as the premises is not or was not used for the handling, storing, disposing of, processing or treatment of waste. Also referenced material that is to be reclaimed, reconditioned or recycled. This language mirrors the definition of “pollutants” in the Glossary.

Premises / Other Property Additional Exclusions

Removed Paragraph D. as mobile equipment that is registered under a motor vehicle law is considered an auto and therefore not covered under the House of Worship policy.

Virus Contamination Exclusion

Included the exclusion from endorsement MCL 199.

Common Glossary

Computer Hacking

Added “computer worm, Trojan Horse, spyware and adware” to definition.

ADDITIONAL CHANGES

Format revised to remove the bullet characters and replace with alpha or numerical characters. Also removed parenthesis around letters or numbers.

The words “above” or “below” used when referencing other text in the policy has been revised to say “in the preceding paragraph” or “in the following paragraph”. This change is being made as companies may reproduce the policies from their systems and due to different spacing, margins etc., the items referred to may not always fall “above” or “below.”
