## **MSO ALL LINES STATISTICAL PLAN REVISION**

<b>BACKGROUND</b>	The MSO All Lines Statistical Plan has been revised to include coding for recent changes in the various MSO programs. This revision includes new company use fields for each line of business.
<b>CHANGES</b>	<p><b>All Sublines - Cause of Loss Codes</b> Cause of loss codes added for Electronic Aggression, Equipment Breakdown, Ice &amp; Snow, Electronic Data Recovery, D&amp;O Liability and Fire Legal Liability</p> <p><b>All Sublines - Loss Cost Modifier</b> For those states where Loss Costs are filed a new field has been added to collect the company's Loss Cost Multiplier (LCM)</p> <p><b>All Sublines - Company Use Fields</b> To answer requests from member companies for customized data collection an <b>additional twenty (20) fields</b> have been set aside for company use. A reporting company can utilize these fields to collect additional data or a more detailed breakdown of the data collected reflecting company program features. This data will be collected as reported. Since each company controls what is reported in this section, MSO edits do not review the data in this section.</p> <p><b>Personal Lines - Homeowners, Combination Dwelling &amp; Mobilehomeowners</b> Protection Rating, Deductible Size, and Liability Limit coding were updated to reflect current program options.</p> <p><b>Commercial Liability</b> Classification Codes and related Rating Base changes were added following the recent update of the Commercial Liability Program.</p> <p><b>Commercial Auto</b> Expanded coding for Commercial Auto Classifications to handle introduction of fleet and non-fleet rating.</p>
<b>EFFECTIVE DATE</b>	This revision is effective 01/01/2012. Companies may implement use of the Company Use Field and other coding changes upon receipt.
